EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 35, line 2; delete "claim 17" and insert "claims 20 or 22".

This amendment is necessary since claim 17 was canceled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicants' information disclosure statements (IDS) filed 20 July 2004 and 20 August 2004 have been entered.

Upon review of the references cited in the IDS, this application has again been found to be in allowable condition. The claimed methods for lubricating a conveyor belt surface

comprising discontinuously applying (I) a liquid lubricant composition comprising (a) an aqueous phase, and (b) 10 to 40% by weight of a silicone oil; and (II) applying a liquid lubricant composition comprising (a) 10 to 50% by weight of water, and (b) 10 to 90% by weight of an oil selected from vegetable oils, mineral oils and mixtures thereof; were not found to be anticipated by or obvious over the prior art references of record. The closest prior art reference still appears to be Montgomery (4,162,347) which discloses treating a conveyor belt with an aqueous composition containing dimethylpolysiloxane and a water-soluble polyhydroxy compound. However, Montgomery adds only a small amount of the dimethyl polysiloxane compound to the composition, preferably from 0.1 to 1.5 percent, which differs from claimed amount of 10-40 percent by weight of the silicone oil component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ellen M. McAvoy whose telephone number is (571) 272-1451. The examiner can normally be reached on M-F (7:30-5:00) with alt. Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Caldarola can be reached on (571) 272-1444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
